### Construction Phase II

- Phase II consists of construction of the Headworks West Reservoir.
- Status: Design provided to Department of Safety of Dams (DSOD) for review and approval.
- Cost Estimate: \$110,000,000

### MBE/WBE Participation

The project has a MBE/WBE subcontracting goal of 15% MBE and 7% WBE participation. Interested contractors are encouraged to network and team up for potential bid opportunities on our social media sites ([Facebook](#) and [LinkedIn](#)).

### Background Information

The Los Angeles Department of Water and Power intends to build a new Reservoir Storage Facility at the Headworks spreading grounds, a 43-acre site adjacent to the Los Angeles River and between the City of Burbank and Griffith Park. Webcor/Obayashi/Lyles is a joint venture as the construction manager at risk for the construction of the Silver Lake Reservoir Complex Storage Replacement project.
